Your Ref :

Dear Kate,

I would like to express my delight in the way your company has recently dealt with our fax requirements. Once again your company were a pleasure to deal with, firstly the requirements were discussed and we talked through the various options available to us, we decided on a system and arranged a time and method of installation. MH Communications engineers attended site punctually and just got on with it. The whole process was flawless as ever.

Yours sincerely

Ian Pennington

IT Manager
