Enza

Mercedes Benz Commercial Vehicle Dealer

To Whom It May Concern:

Enza Motors Ltd recently went to tender to four Telecommunications providers to find a Company that could dramatically reduce the group overheads for land line, call spend and mobile costs, and in particular a Business that could provide a service behind the bills.

MH Communications set their stall out from the initial meeting, offering an honest service with no hidden connection fees or minimum call costs, and were able to reduce our telephony costs significantly. We felt that dealing with MH Communications, and in particular Kate Fox, that their industry knowledge, dedication, honesty and integrity made it an easy decision as a Financial Director to make the move to MH Communications.

Not only have MH Communications reduced our costs significantly for the Group, they have been able to improve the reporting functions and features from a network level that we didn't have before such as:

- On line billing,
- E-alerts,
- Full account management

The simplicity of resolving an ongoing mobile network issue at our Leeds office, again gave Enza Motors the confidence to transfer its mobile and landline traffic across to their chosen network.

I highly recommend any Business that is looking at reducing, consolidating, or moving networks, to engage MH Communications, who will in my experience offer any Company a competitive and comprehensive solution.

Yours faithfully

N J Barrett
