Dear Sirs

MH Communications have been our Telecommunications provider for the past 3 years, having installed our IPLDK system for over 130 users at our two offices in Newton-Le-Willows. As a business we have high dependence upon our telephone system, as we receive/make thousands of calls every day. During that time, MH Communications have worked tirelessly to ensure that our system was fully operational and mirrored our business needs.

Mike Hayman – Managing Director of MH Communications has lobbied LG (our telephone manufacturer) in order that we are able to continually improve and adapt our telecommunications platform, to meet the changing needs of our business.

Mike has been reliable and extremely accommodating, to ensure minimum business disruption. For example, he has always been willing for his staff to attend our premises out of normal working hours (evenings or weekends) to try and resolve any issues we have had with the phone system, particularly during the installation period".

Yours faithfully

Andrew Simcott
